How did you hear about TAVO Total Health? _

In case of emergency, contact and phone number _

TAVO Total Health requires payment at the time of service. TAVO Total Health does not participate with any health insurance companies (e.g. Aetna, Cigna, Blue Cross Blue Shield) or with any public government health programs (e.g. Medicare, Medicaid, Worker's Compensation), or other reimbursement services (e.g. lawsuit settlement cases, car accident cases).

For clients who wish to submit claims to their private insurance providers or other reimbursement services, TAVO Total Health can provide proof of payment, along with the diagnostic (ICD-9) and treatment codes (CPT codes) for each session.

Medicare clients who specifically choose to receive therapy services from TAVO Total Health instead of from a Medicare participating provider or supplier understand and accept that Medicare does not cover the services of TAVO Total Health and as such, will not reimburse the costs.

TAVO Total Health encourages new clients to contact their private health insurance company or other reimbursement services prior to the first visit in order to determine their "out-of-network" physical and/or occupational therapy benefits.

I understand and accept all of the above-clarified information:

Signature (Client/Guardian or Parent if patient under 18 years old)
